# Dinusha Neranjana Bandara

HR & Compliance / Support & Implementation Engineer

# Intro

I am a BICT (Bachelor of Information and Communication Technology) Honours degree holder with a strong foundation in technology and systems thinking. I began my career as a Support and Implementation Engineer, where I gained hands-on experience in software deployment, client support, and system optimization.

Currently, I am working as an HR Compliance Intern at MAS Holdings, where I'm building my expertise in HR policies, labor regulations, and internal compliance processes. This transition reflects my growing passion for human resources, employee welfare, and organizational ethics.

Beyond my professional interests, I am also an active sportsperson, which has instilled in me a strong sense of discipline, teamwork, and perseverance—qualities I bring into my work every day.

_____
